ORDER

AND NOW, this 28th day of June 2021, upon consideration of “Appellant’s Application for Relief for Recusal and Disqualification of the Honorable J. Andrew Crompton Pursuant to Pa.R.A.P. 123” (Application), the Application is GRANTED.¹

¹ Despite my self-assessment and resulting confidence that I have no bias relative to the present matter and that I can render a decision fairly and impartially, especially in light of the passage of nearly a decade since I was involved, as a staff attorney for the Pennsylvania General Assembly, in the matter referenced in counsel for Appellant’s lengthy Application, in which he states that he believes my participation creates the appearance of impropriety, I will, out of an abundance of caution, and to avoid any such perception in the mind of any objective person, however unlikely, recuse myself from further participation in this case.

The Prothonotary is directed to mark the undersigned jurist as recused in this matter.

A handwritten signature in black ink, appearing to read "JAC", written in a cursive style.
